

PLUG INTO A LEAN HEALTHCARE  
INITIATIVE THAT YOU CAN  
MOVE ON NOW.

**Y**ou know that lean six sigma practices pay dividends. Transportation could be the next area where you realize significant, measurable gains.

### THE FUTURE OF HEALTHCARE TRANSPORTATION

At MedSpeed, our exclusive focus on healthcare gives us a keen understanding of the rigorous demands of medical transportation – including safety, temperature and timing. As your transportation outsourcing partner, MedSpeed designs and executes centralized transportation solutions for the movement of patient and business critical materials including laboratory specimens, pharmaceuticals, radiology films, medical records, mail, and supplies.

### IT'S READY FOR YOU NOW.

Operating under lean six sigma principles, MedSpeed streamlines fragmented transportation networks to eliminate service overlap and applies quality processes and proprietary scan-track technology to deliver best-in-class client service, day after day. Let us show you how to achieve significant cost savings and service improvements.

Plug into today's best practicing healthcare transportation provider.
